16/10/14 Lecturer in Physics.

SYNOPSIS:

Today BSS organisation kept a meeting about the beliefs on superstitions by the people in the society. The people on the dias gave their opinions and gives us awareness about Superstitions. Superstitions are just a part of thinking of our brain. we have to overcome from the fear of superstitions in the world of science.

Another sir told the similarities between a man and an animal. That means there is no difference between a man an animal. language makes man different from animal. He also told extinct of dianosours and the
