Report: All the I years of Physics and Electronics Students have Visited the District Science Museum to get knowledge about the Practicals. And also Students get to know that how we will be using science in Our Daily Lives.

Feedback on science museum

8/9/2018

We the students of K.S.V Govt degree College (W). Anantapur. We all went to Science Museum near Shovada Nagar. There we spent a lot of time by seeing various projects. And we saw skeletal body and various aquatic fishes & animals. and we saw various science projects related to both physics & electronics and demo's given by staff. We learnt more knowledge on science and general topics of our daily life by simple works. And we enjoyed a lot there. Our lecturer also explained some projects. Then after that we came back to our college.

Date : 31-01-2019

All Electronics Students have attended to Science Fare at St. Vincent De Paul School, Ananthapuramu.

Inspire 2019 Visit Feedback 31/11/2019

We the students of K.S.N Govt degree college (w) Anantapur. As we all went to St. Vincent De Paul near TV Tower. On General topics of science, There we spent alot time by seeing those projects done by students of all schools. In such a small age they worked hard for their projects. There we saw some projects on water harvesting, automatic water current, Generator for small towns, etc.

We got inspired by those projects and by their demo. We went to other block for some more projects, in that we learnt more knowledge on science and General topics of our daily life by simple works. Even we saw a project on washing machine without using power. So there we along with our lecturer's enjoyed alot. After that we came back to our college.
