

KSN Government Degree College for Women, Anantapur
Department of Electronics

Activity: Vana Mahosthavam

Dated : 17-07-2015

Tree Plantation:

Keeping the spirit of Vanmahotsav alive with the ongoing tree plantation drive all across the country, a tree plantation programme was organized in our College on 17-07-2015. The students along with lecturers planted trees and surrounding areas of the College. A variety of different types of saplings and plants were planted. Addressing the gathering on the occasion, the Mayor appealed to the students and Lecturers to ensure the sapling's healthy nurturing. She appealed to them to adopt the saplings planted for the 100% survival and healthy growth of each sapling into full-fledged trees for creating purer environment in the society. The Mayor appreciated the College management, the Principal, and the students for taking the initiative to make the surroundings green. The media were present to cover the event.

Activity : Field Trip

Dated: 12-09-2015

Visit to Inspire 2015

The students of I B.Sc., are taken to the "Inspire 2015" exhibition held at Vincent De Paul School in the Ananthapuramu on 12-09-2015 by Kum. S. Pavani, Lecturer In Physics.

The students viewed the models presented by the students on the concepts like Green House Effect, Solar power based bulbs water heater and led based signaling devices.

There were models based rain water storage, Re use of waste especially plastic, electronic based traffic systems biofertilizers, organic farming and its importance like use of ethane instead of carbide to ripen the fruits. Eco friendly housed were also designed and displayed.

There were around 110 models which were best models selected from each mandal of Ananthapuramu.

Feed back on science museum

14/11/2015

We are all the students of K.S.N Govt Degree College for women (Anantapur). We are all went to science museum near by Sara da nagar. There we are all spent alot of time for seeing various projects and we are also saw skeletal body and various aquatic fishes and animals and we are saw various science projects related to both physics and electronics. we are learnt more knowledge on science and general topics of our daily life by simple works. And we are enjoyed alot some projects. After the completion of seeing the museum we are all come back to our college.
