Guest Lectures 2019-14

M. NARENDRA. M.Sc. B.Ed., Member of Breakthrough Science Society ~~attender~~ presented a Guest Lecture on: Role of Science in Human Development.

SYNOPSIS:

Role of Science in Human Development.

Science plays a vital role in day to day life of human being. Science is rapidly changing the everyday life of man. For example, a mobile phone which was a luxury 30 yrs back is now a compulsory accessory. Science can even help us to study about its microscopic level such as 10^{-9} mts dimension and it is also helping a lot to know about the universe whose dimensions are greater than 10^{19} mts.

It is the science which is responsible in knowing about the Mars which is a distant planet from the Earth. The landing of MOM on the Mars is also because of study of Science.

Department of Physics

Guest Lectures 2019-14

A Guest Lecture has been organized on **19/8/2016** for the III B.Sc (MPCs) students on by Shama Bharathi Lecturer in English Kalyanadurg.

LETTER OF APPRECIATION

This is to certify that **Dr.B. Padma Suvarna**, Associate Prof. and Head of the Department, Department of Physics, delivered guest lecture at our college on 24.09.16 and spoke on the topic "**Diffraction due to Single Slit and Double Slit**". Her way of approaching the topic is praise worthy. The students are benefited by her presentation. This guest lecture certainly would improve their perception levels on the above said topic. I thank her for her genuine presentation.
