SYNOPSIS:

Today we are go to the Science Museum. In that Museum we are all well known without Science a human being can't live their life.

Another point is told to us if we do different experiments in the Museum.

We discuss about such things like Series combination of bulbs, Parallel combination of bulbs. If we have a science you can live any place in the world.

Dated: 12-09-2015

Visit to Inspire 2015

The students of I B.Sc., are taken to the “**Inspire 2015**” exhibition held at Vincent De Paul School in the Ananthapuramu on 12-09-2015 by Kum. S. Pavani, Lecturer In Physics.

The students viewed the models presented by the students on the concepts like Green House Effect, Solar power based bulbs water heater and led based signaling devices.

There were models based rain water storage, Re use of waste especially plastic, electronic based traffic systems biofertilizers, organic farming and its importance like use of ethane instead of carbide to ripen the fruits. Eco friendly houses were also designed and displayed.

There were around 110 models which were best models selected from each mandal of Ananthapuramu.

Visit Science Museum

The students of I B.Sc., are taken to the “**Science Museum**” on JNTU Road, Ananthapuramu on 14-11-2015 by Kum. S. Pavani , Lecturer In Physics.

The Assistant Rahamathulla explained some projects involving basic physics principles such as conversion of mechanical energy in to light energy.

- ◆ The importance of open circuit and close circuit.
- ◆ A proclainer model based on Archemedics principle
- ◆ The set up of Coupled Oscillations having ten different bobs of different lengths
- ◆ The structure of human skeleton
- ◆ The old models of Radio etc.,

Activity No : Field Trip
Horsely Hills and Thimmamma marrimanu

The students of the B. Sc., (III MPCs & II BZC) along with the teaching staff of school of sciences have gone for a science tour to "Horsely Hills and Thimmamma Marrimanu" on **11-03-2016**.

During the journey we took a break at Government Degree College, Kadiri had a breakfast and then reached Thimmamma Marrimaanu- the world's Second largest Banyan whose age is more than 500 years and is spread in 15 hectares. It is Worshipped by the name Thimmamma saying that a married women who performed the sathisahagamanam with her husband has been born in the form of banyan tree.

The staff reached horsely hills which was on the top of the mountain having a Zoo park and a historical museum displaying the old days flora and fauna which used to live in that area around the water falls.

There was also a building that was built in the 18th century which was built with bricks by the British Government of that period. The student also visited Governor's bungalow.

Horsely hills is also a holiday resort with surrounding greenery.

Total Number of students attended : 40

The teaching Staff accompanied are

Dr. Y. Sivachandra, lecturer in Chemistry;

M. Nagasasikala, lecturer in Mathematics;

D. Vanaja, Lecturer in Zoology;

M. Vishnu Priya Lecturer in Botany;

Kum. S. Pavani, Lecturer in Physics;

Kum. T. Syamala, Guest Faculty in Physics.
